

ARTELIA is part of an equal opportunity policy in order to allow all our learners to access our various training courses and develop their potential.

ARTELIA is thus committed to all learners in disability to take into account his needs, to study the specific arrangements, to make the link with the various interlocutors and to accompany him in his steps.

ARTELIA's mission is to deploy the human, technical and educational resources at our disposal to promote the experience of learners with disabilities.

## Who take care of me?

### The ARTELIA disability referent

Its mission is to ensure that the reception of learners with disabilities is taken into account by all the actors of our training organization:

- Administrative team
- Educational team
- Accompanists

He is the privileged interlocutor in your steps and ensures that you can access the training in the best possible conditions.

## How is my training going?

### 3 steps !

Talk about your disability

Adapt training

Organize the follow-up

## What tools are available to me?

Each learner with a disability can get in touch directly with our Disability referent

You define together the tools to follow the training in an appropriate way

The notice must be significant to allow the necessary tools to be deployed

The training being practical and manual, please inquire as soon as possible about the feasibility with the Disability referent
